<Developer />

<Jobs>

C++/Python developer at Stupeflix - from September 2013

I'm currently doing my part-time job at Stupeflix for my Epitech third year. I work on themes creation and some C++ tools to improve Stupeflix engine features.

C/Php teaching assistant - Mars 2013

An ETNA Assistant's job involves acting as a teaching assistant among ETNA students. I teached them C and Php basics, helped them in their projects and also rated them.

Bemyapp ambassador - since 2012

My role as an ambassador is to connect BeMyApp and the various schools, by promoting the events organized during the year.

Web developer at Kontestapp - July 1st, 2012 to December 28th, 2012

My responsability in the company was to realize the second version of the platform as a web-developer. I also worked in R&D on future Kontest products.

</Jobs>

<Education>
